Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1, 2, 8, 9, 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hodgen in view of Puccio et al. The patent to Hodgen (fig. 2) teaches structure substantially as claimed including plate and frame, cover body top plate the only difference being that base is not of metal material. However, the patent to Puccio et al teaches the use of providing metal structural elements. It would have been obvious at the time of the invention to modify the structure of Hodgen to include a metal base and frame, as taught by Puccio et al since such structures are conventional alternative structures used for the same intended purpose, thereby providing structure as claimed. The use of different types of stone and metals are conventional teachings for structural elements. Applicant is given judicial notice of such. To use such known elements for

the same intended purpose would have been obvious and well within the level of ordinary skill in the art, thereby providing structure as claimed.

Allowable Subject Matter

Claims 3, 4, 5, 6, 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Keller, Rubenstein, Turner, Goldman, Beaver, Battagloa, Saltzman et al, 2-297304 teach structure similar to applicant's.
